“New Manor” is an ultramodern project starting off Phase 1 with a 10-acre undertaking, which consists of 4 high-end buildings, 30 lifestyle villas and a Clubhouse. The development plans for a school, a fully equipped dispensary, parks, playgrounds, supermarkets & a 4 Star Resort.

To serve those looking to move out of the city and embrace nature and looking for their place to just cool off after a long week, away from the traffic and pollution in the maximum city.

The entire project spreads over 18 lush acres and nestles against a backdrop of scenic green hills with idyllic views over the lagoon providing for the perfect weekend or vacation home, ideally your “Second Home” easily reached from Mumbai in 90 minutes.

We are pleased to introduce the Villaments concept. This unique design incorporates all the facilities of a villa into aesthetically styled apartments. These are green homes placed around a central courtyard which enhances the building's climatic response, light and enhances cross ventilation.

This concept was created by Ingrain Architects as hybrid of 1st and 2nd homes to serve those looking to move out of the city and embrace nature. The units have a modern kitchen, spacious living room and bedrooms, attached bathrooms and personal garden overlooking the scenic landscape. This is the first project in Manor to offer an elevator, best in class fittings and your own private garden, that give you a villa finish.
